Kya Sands  
Johannesburg

To whom it may concern,

I'm writing to recommend the services of Systems Control integration. Centurion Systems have been using the services of Systems Control Integration since 2009 with regards to camera and wiring setup and configuration, network wiring, general security in our stores area and armed response in the Business Park. We also use Sys Control for our in house camera surveillance which has been very successful.

Rudolph and his team are always a phone call away and are always willing to help in any situation with anything that needs to be sorted out. They have gone that extra mile for us in the past and in some cases when we needed help with new cameras and wiring after hours.

They have been very reasonably priced and have complied with all our requests. I'm happy to recommend Systems Control Integration.

If you have any further queries you are welcome to call me.

Kind Regards  
Paul Mearns  
IT Manager  
Centurion Systems
