

ACCESS CONTROL APP

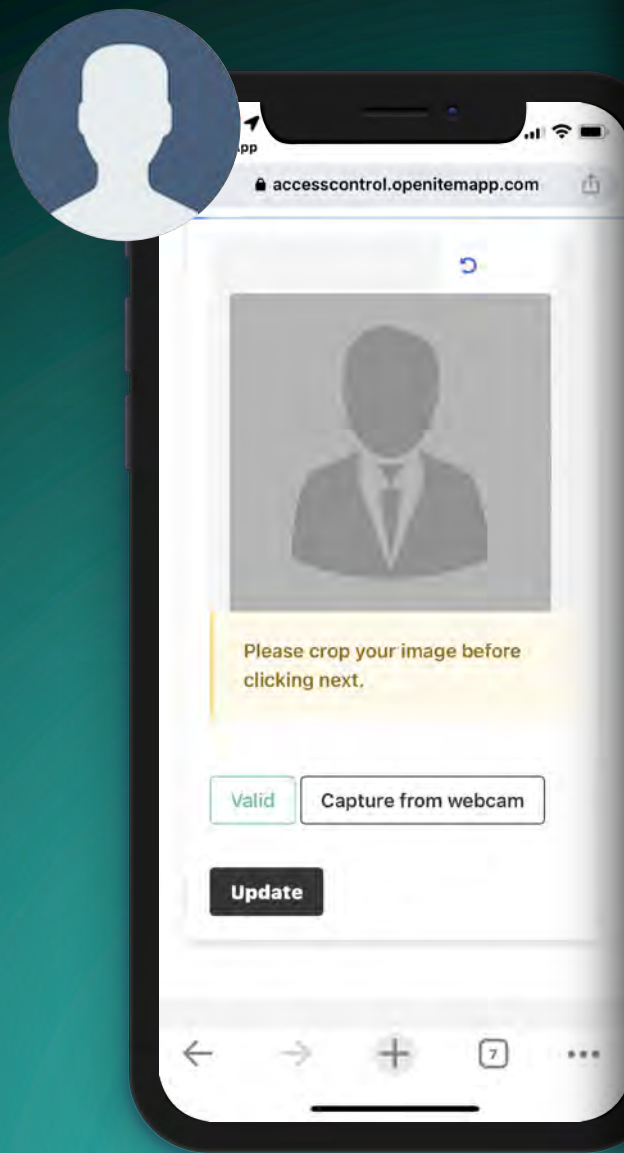

FACIAL RECOGNITION

Our Facial Recognition function ensures clear identification of all visitors and residents for easy, quick, reliable and convenient access and exit to controlled access points.

Facial recognition process explained

Has the visitor gained prior access to the estate/entry?

NO

Send visitor access code/pin for access

Guard at Access Control entry point
captures visitors visitor's detail

First time access **complete**

YES

add/invite visitor as a regular (prior visitor)

Resident adds selfie/profile picture
Notify visitor add selfie/profile picture

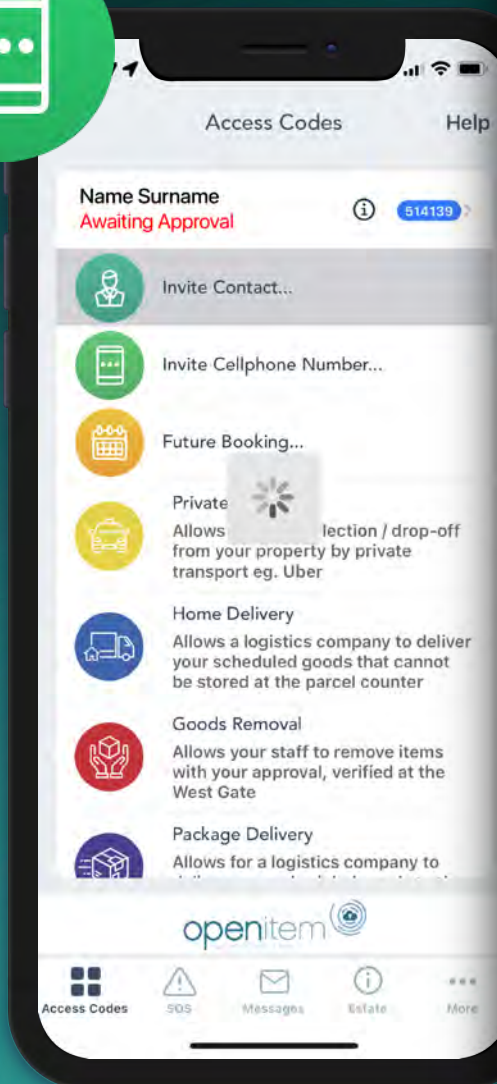

Enable Biometric Access

FACIAL RECOGNITION ENABLED

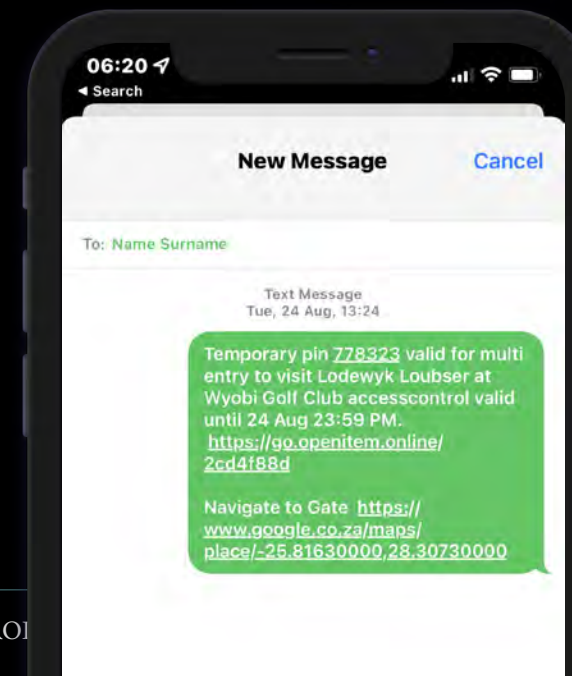

ALLOW FOR FIRST TIME ACCESS BEFORE ATTEMPTING FACIAL REGISTRATION

Invite Contact/number

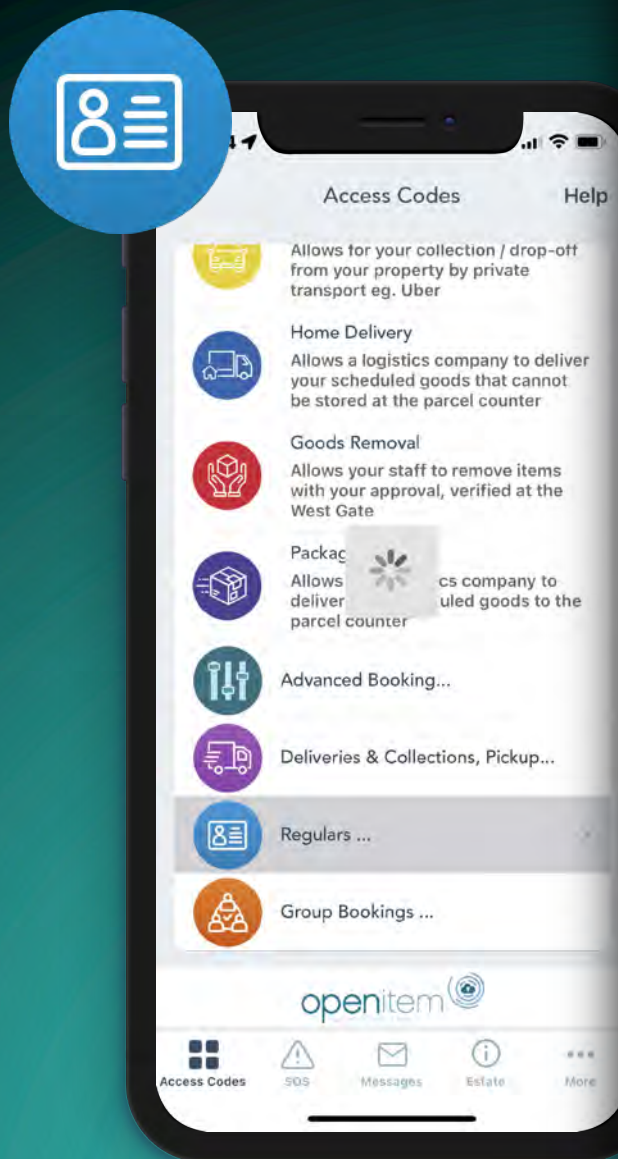

Choose a contact from your address book and send them a visitor booking. Invite a visitor via your address book or by entering their respective contact detail/telephone nr.

PRIOR TO THE VISITOR'S FIRST ACCESS, THE PROFILE CAN BE COMPLETED BY ADDING A SELFIE/PROFILE PICTURE.

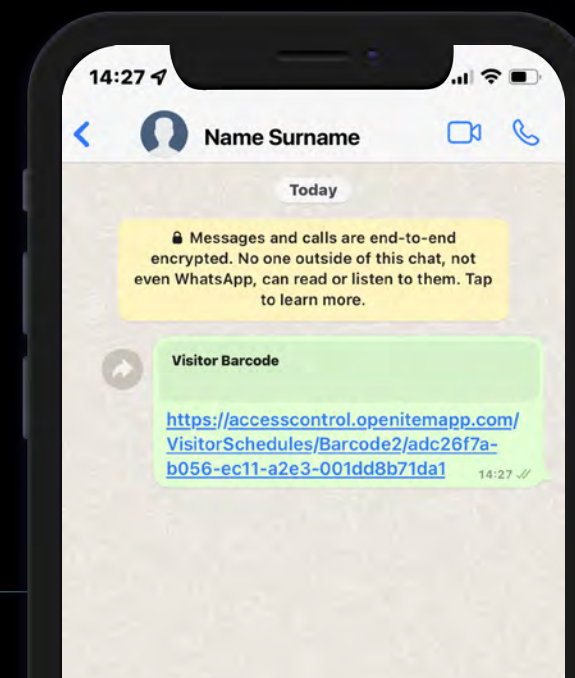

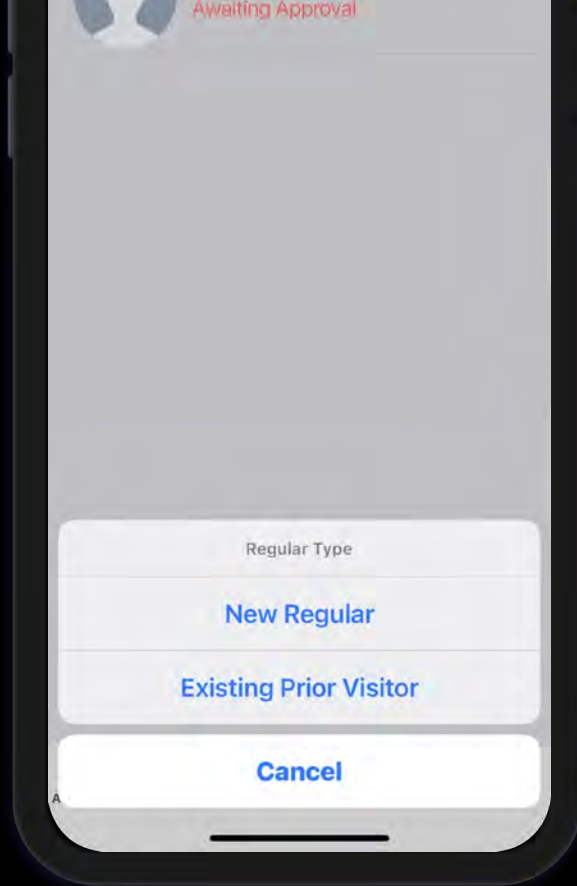

Schedule Regular

This allows residents to pre-approve and grant access to visitors. The visitor can then become a regular visitor. Using this option allows you as the booker to upload the visitor selfie/profile picture.

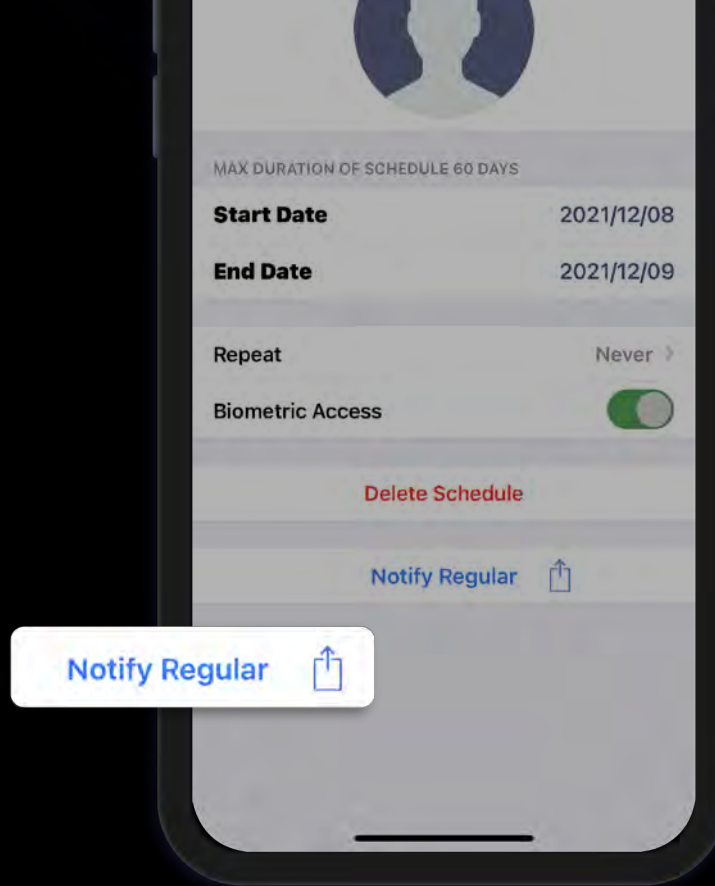

The prospective visitor will also be notified to upload and update their own profile picture/selfie.

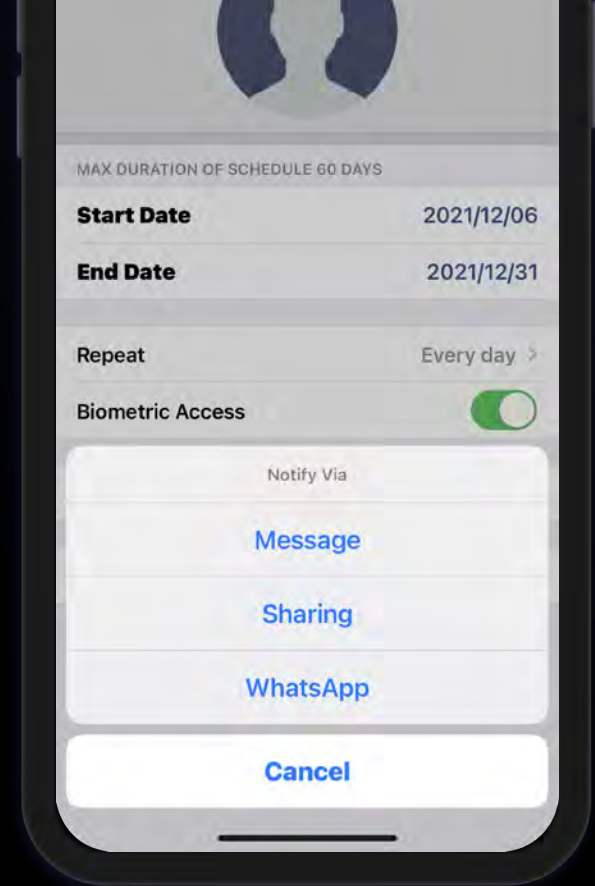

A

As per the add regular section, choose the correct option

B

Select the option to notify the selected regular as to upload their own selfie/profile picture

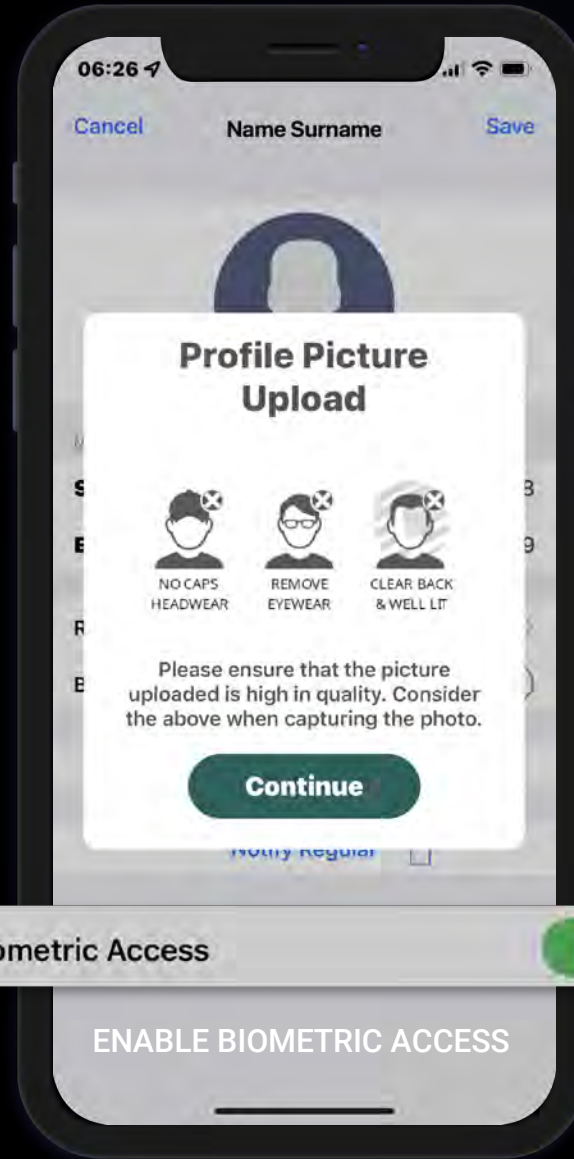

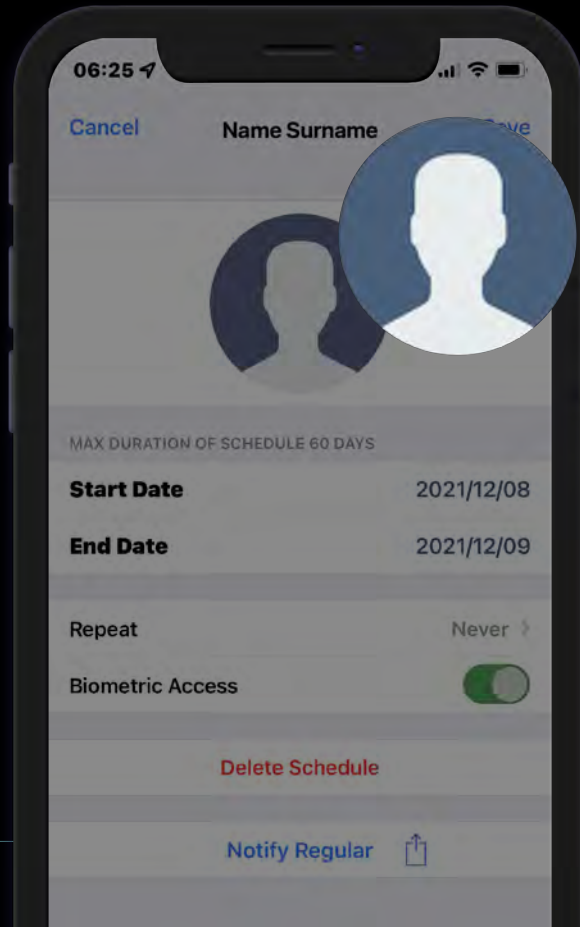

C

Choosing the preferred communication type. Refer to [page 6](#) of this manual for further steps.

A

If you have the visitor's profile picture at hand. Click on the facial image and follow the steps

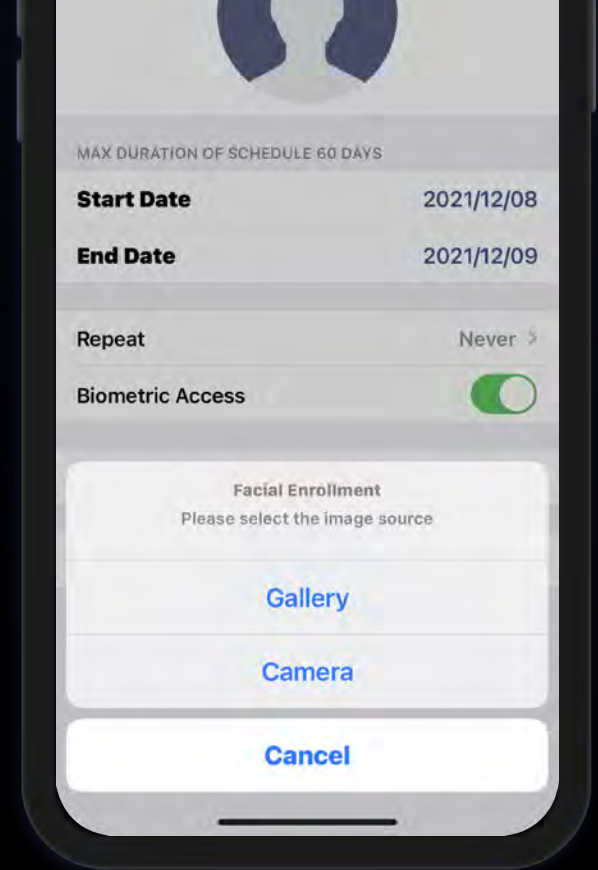

Biometric Access

ENABLE BIOMETRIC ACCESS

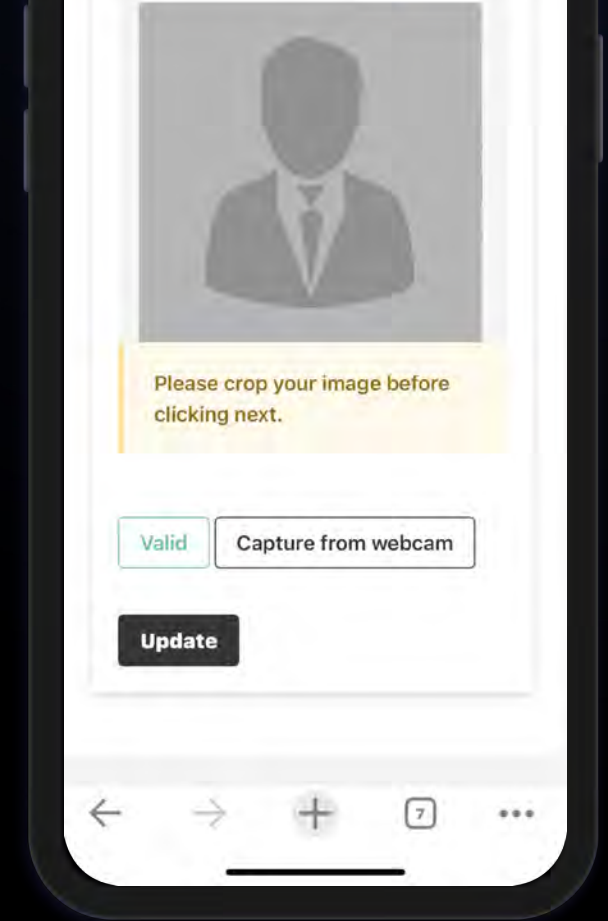

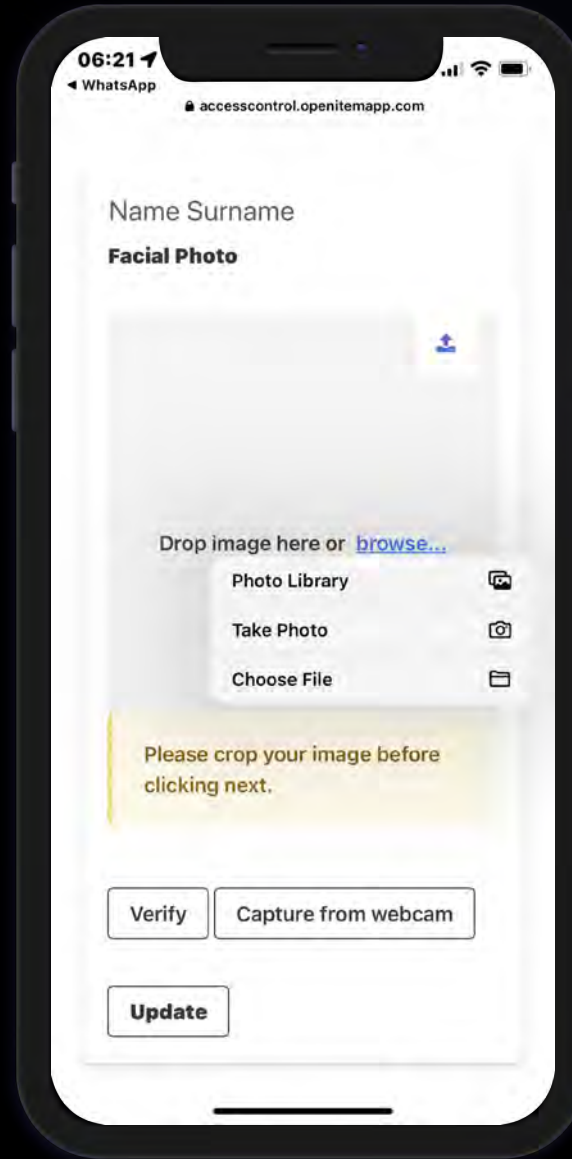

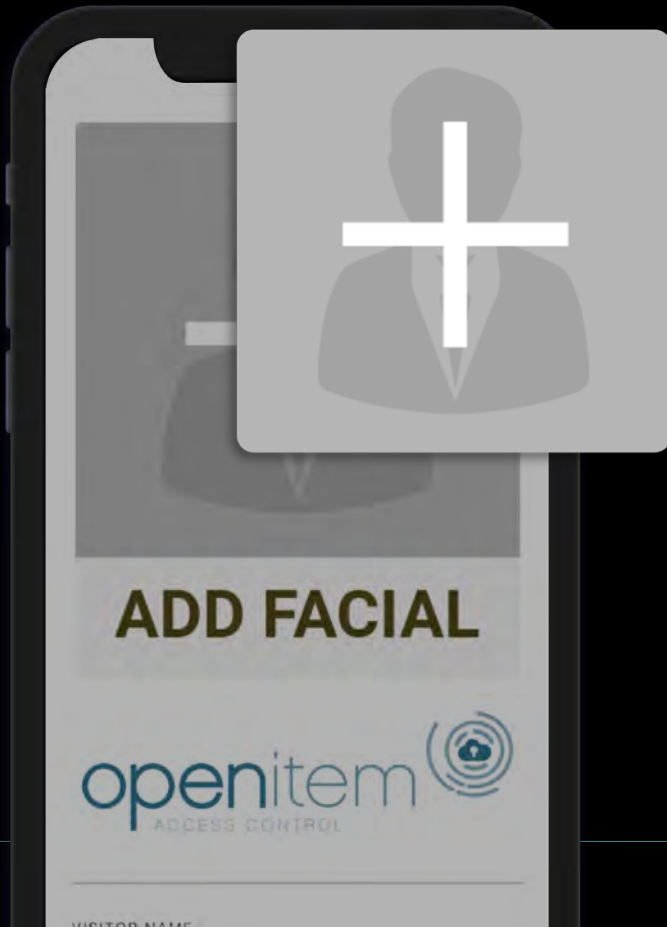

B

Select the correct source for uploading the picture. Via your phone's gallery or by taking a picture with your camera.

A

On receipt of the message.
Your phone's browser will open
the upload dashboard.

3

Select the correct source for the image
and **VALIDATE** the image to ensure
clear identification
